

fastened. Watch your ride at all times and pay attention to those riding. If you think someone is doing something that could put him or her in danger stop your ride and call your supervisor. **Remember, it is better to be safe than sorry.**

Attraction Height Requirements

The safety symbols and attraction descriptions have been designed to assist guests in selecting attractions best suited for their physical conditions. All Cliff's Amusement Park attractions include movement and changes in direction, at varying speeds and intensity. Guest with back or neck injuries, heart conditions, high blood pressure, pregnancy or recent surgeries are cautioned against riding the attractions. In some cases, guests are not allowed to ride depending on their particular disability of condition.

Please refer to the above lettered symbolism to assist in your attraction choices below
