

Attraction Height Requirements and Accessibility

Rev. 3/12/25

The safety symbols and attraction descriptions have been designed to assist guests in selecting attractions best suited for their physical conditions. All Cliff's Amusement Park attractions include movement and changes in direction, at varying speeds and intensity. Guest with back or neck injuries, heart conditions, high blood pressure, pregnancy or recent surgeries are cautioned against riding the attractions. In some cases, guests are not allowed to ride depending on their particular disability or condition.
